September Program – Economic Overview

Speaker – Nathan Kauffman

Nathan Kauffman is the Assistant Vice President and Omaha Branch Executive with the Federal Reserve Bank of Kansas City. In this role, he serves as the bank's regional economist and representative in the state of Nebraska. He recruits and works closely with the branch's board of directors, and is responsible for briefing the Kansas City Fed's President – a member of the Federal Open Market Committee – on economic and business activity in the state.

Nathan will be presenting an economic overview specific to agricultural matter as well as the overall Nebraska economy.

Looking Back: August 22nd– Jim Honz and Seth Earby gave very informative presentation about what tax reform might look like under President Trump and how to prepare ourselves for the changes in taxes. These were all predictions based on what the president has said about reform so we will wait to see what actually happens in the future. Seth then spoke about what to look for when it comes to cybersecurity and keeping our information safe on the internet. It was a very informative presentation with a lot of good take- a-ways.

Coming in October – An Update on Costco Plant, Fremont, NE
